

10-Spindle Carousel SPECIFICATION

10 Spindle Carousel - Vertical View

10 Spindle Carousel - Horizontal View with Tailstock

General Description:

Our carousels are available in various sizes to fit a variety of parts and projects. The carousel for a 12" cubed or larger chamber typically has 10 spindles. Each spindle is fitted with collets with a capacity of up to 1/2" and the optional tailstock slides back and forth to adjust the tailstock spring pressure or to remove parts. Indexing is by stepper motor, and the spindle rotation has a wide speed range and is driven by a micro-stepper motor.

SPECIFICATIONS
