

## 20-Spindle Carousel SPECIFICATION

### General Description:

Our carousels are available in various sizes to fit a variety of parts and projects. This carousel for an 18" cubed or larger chamber has 20 spindles. Each spindle is fitted with collets with a capacity of up to 1/2" and the optional tailstock slides back and forth to adjust the tailstock spring pressure or to remove parts. Indexing is by stepper motor, and the spindle rotation has a wide speed range and is driven by a micro-stepper motor.
